Oregon Raceway Park adds new Assistant Manager Position.

The Pacific Motorsports Management Board of Directors, the owners and operators of Oregon Raceway Park, are pleased to announce the addition of Kyle Nadeau to the O.R.P. management Team. Kyle will immediately be taking on the full time duties of Assistant Track Manager. His move to Oregon was from the Chicago area where he has worked for Autobahn Country Club. Kyle also brings management experience from Miller Motorsports Park in Utah and several other Mid West Road Racing venues.

O.R.P. is Oregon's largest racing facility and is located in Grass Valley in the North Central wheat Country of Sherman County.

This hiring marks the first time the Company has sought talent from outside the state, however Kyle impressed us with his enthusiasm, and energy as much as his background said company C.E.O. Tom Miller.

In addition to the Board of Directors, the Management Team at O.R.P. consists of Office Manager Brenda PIkl, Operations Manager Bill Murray and Facilities Chief Joe Johnston. With the increase in our Track Day business during the 2014 season, the need to expand the team was clear said Murray. We have a unique reputation for being able to provide a very high level of support services to our Event Presenters. O.R.P. has earned wide recognition as the premier facility in the Northwest to offer an extremely technical, yet remarkably safe driving experience. Our challenge, Murray continued, and the impetus for Kyle's addition to the staff, is to allow us to grow the business while maintaining those core values that are responsible for our success.
