

STAR PROJECTS

*Presents
A Special Event for O.R.P.
Club Members and their
guests only.*

Driving by Starlight

Several Club members have indicated an interest in beating the summer heat by running "The Night Shift" at O.R.P. but so far no one has proposed one yet. So in the spirit of "let's just do it" and make sure it happens, STAR Projects will be underwriting the evening of Sunday July 8th for a Track Night for Club Members and their guests only. Your usual individual track day fees will apply and the format will be the same as a regular Club Day only we will be serving Dinner instead of Lunch. This event will happen even if the minimum number for an add-on track day is not met. See the schedule below.

To justify the trip for many of our outlying members to come try a night time event I am proposing a regular add-on track day for Monday the 9th. However, this will require the usual minimum number of 12 to sign up to lock in Monday. Please call Brenda by July 1st if you will be attending either or both so we can be sure to have time to plan the meal logistics and staff scheduling.

Schedule for Sunday, July 8th.

Gates are open Sunday morning around 10:00 a.m. (To let out the guests following my son's wedding).

Driver meeting @ 2:30 p.m.

Track Orientation for any new guests 3:00

Track goes hot at 3:30

Dinner @ 6:30

Hot again at 7:30

Sun sets @ 8:53 (Not subject to negotiation).

9:30 Switch to South loop configuration.

Checkered flag @ 11:30 p.m.

No headlights? Call for special deals on rental cars for the after sunset part of the event.
