

Saturday, March 18th - Oregon Raceway Park

Fire suppression practice: Part of our annual Turn Worker Training and Driving Instructor Seminar last weekend.

Thanks to our Guest Speakers Ronnie Swyers, Steve Birchard, our retuning Driving Instructors and experienced course control staff, for again making this a highly effective program for refreshing skills and passing on the critical knowledge this sport requires. For new instructors and turn workers, the targeted classroom and combined on-course practice, done in a real time format, has proven to be our best tool for training the inflow of new talent.

Safety: It is the only thing we take more seriously than having fun.

Also Thanks to ABC Fire Extinguisher Company and Skip Day Track Day Pete Belfanti for their support of this training program.
