

OREGON RACEWAY PARK

UPDATE: 3/21 to 3/24/2019

With the warming temperatures on Wednesday many laps were still required to break up the snow and expose it to the sun. By Friday the main driveway had enough water to support a run of spring salmon. The track was 99% dry in time for Saturday's "on course" half of STAR Projects combined Driving Instructor and Turn Worker Training Day.

Above Left: Professional Driving Coach and our Guest Speaker Mirko Freguia takes a question during the round table discussion.

Above: JoLynn Franke, a fresh face to the O.R.P. Instructor roster and returning Instructor Jeremiah Russell.

Left: We don't get much for gas mileage but we do get a well trained Track Support Staff.

Thanks again to Portland's A.B.C. Fire Extinguisher for their continued support of our annual training program.
