

O.R.P. CLUB UPDATE:

August 12, 2019

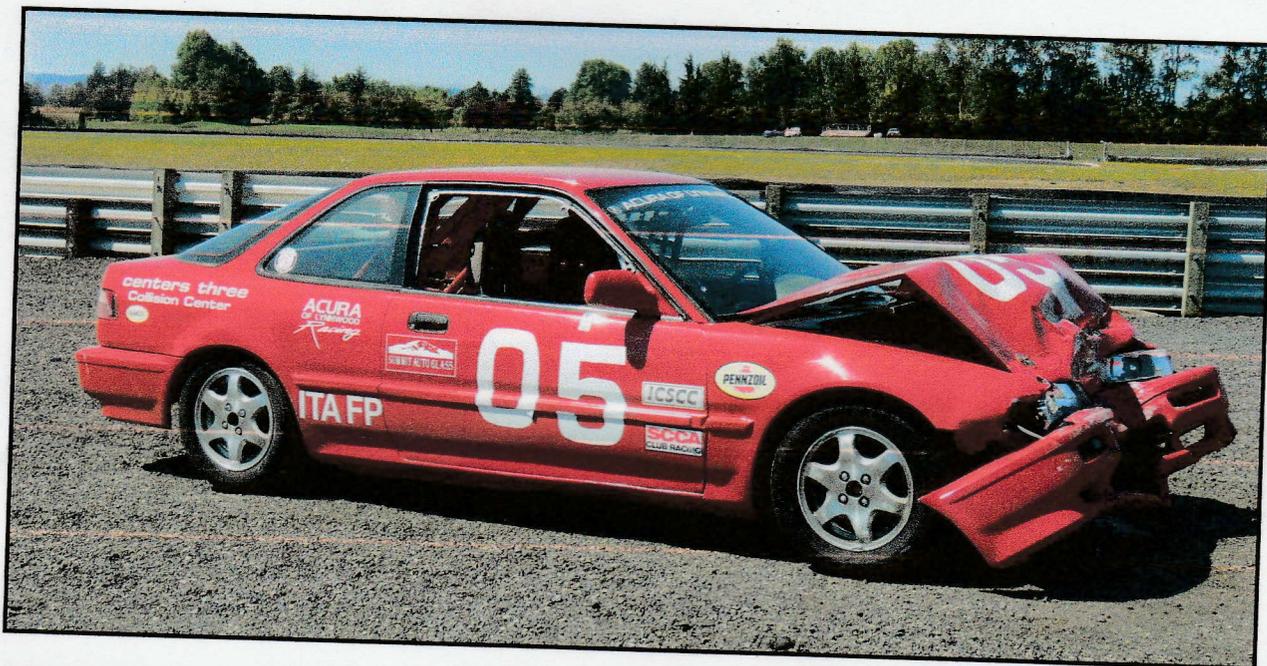

There is a line from an old Beatles song that comes to mind frequently these days "I get by with a little help from my friends" Well lately there has been a lot of help from a lot of friends and I just want to make mention of it as the effort is much appreciated by myself and I am sure all of us that benefit from the effort:

First, and very close to my heart (and my stomach) I want to thank to our members who keep stepping up and volunteer their culinary talents to make the "Guest Chef Program" work. The variety of the menu has added to the popularity of our dinners and promotes the camaraderie that continues to grow amongst the members has been an unexpected bonus to the enjoyment of The Club. First mention is to thank my very helpful friend Marla who has done the heavy lifting of Food Services for years as well as Pricilla and Brenda who always step in to help get the lunches served on schedule when unforeseen duties like flat tow and fire suppression impact the schedule.

Second and most recently, would be to thank Vincent So for producing dinner last Friday night and Mario & Christine Lapari for taking on Saturday's Lunch. Also thanks to all the Partners and Members that drop in to keep the ball rolling like Ron and Joyce Tanner, Joseph Gilmore (who would have guessed that Joseph stacks a beautiful antipasto tray and rolls fender lips too). Of course, thanks to Brian, Carry, Jeff and those who donate the excellent wine selections for our pre dinner tasting sessions. If you have been missing these Club Dinners sign up, they just keep getting better and better.

While mentioning Mario, Joseph and Ron I also want to thank them for taking time to undergo training of our major Fire Suppression Equipment and standing in for me last Sunday so I could attend the I.C.S.C.C. race at P.I.R.

Unfortunately I was involved in a 5 car melee in turn 2 just 17 seconds after the green flag and totaled one of the Acura rental cars.
