21. Fuel/chemical spills: In the event of a gas or oil spill on any asphalt area, time is of the essence. Quickly notifying track personnel will minimize the damage. In the case of a fuel spill, dousing the spill quickly with water can be the difference between no damage at all and a \$1,500.00 or higher repair bill. ORP takes spills very seriously. Please be careful.

22. Cleanliness: In the spirit of maximizing enjoyment, we try to keep ORP clean. Everyone is asked to help by picking up their trash, monitoring those who are careless, and reporting vandalism of any kind. Please encourage your participants and spectators to do the same.

23. Standards of conduct:
 - a. Safety requires the use of courtesy, kindness and common sense. All club members are encouraged to stress this behavior among their guest(s).
 - b. ORP reserves the right to fine and/or expel individuals who are abusive of the Park. Abuses include: fuel/oil/chemical spills, crushing pavement, fires, excessive trash, noise violations, failure to exit the park in a timely manner at the conclusion of an event, outstanding debts to the track, vandalism and/or abusive behavior towards ORP personnel and/or other facility users.
 - c. We are respectful of the community and ask all members to remind their personnel, employees, guests, invitees, and participants to obey all posted speed limits, and other laws, when traveling to and from ORP.

ORP Club Novice Driver Program

Purpose:

To allow drivers under the age of 18 to acquire vehicle safety and operational skills and enjoy the on course activities of Oregon Raceway Park a Novice Driver Program is hereby established, This program will operate under the following guidelines which may be revised or amended at any time by The Operations Manager as dictated by best practices and the needs of safety.

Structure:

The track Operations Manager (the O.M.) will oversee the Novice Program and have the final authority.

The O.M. may from time to time appoint a Driving Master (D.M.) to act as an assistant to supervise and coordinate the days training activities and assume the duties associated with the program.

Application:

All Underage applicants will submit an application to the track office not less than one week prior to an event they wish to attend.

At that time all parental releases and documentation of prior experience (if any and similar to what we collect from our instructor applicants) must be submitted for review by the Operations Manager. This will become the base information for the Novice Driver training logs to be filed in the track office. Such documents will include a photograph for purposes of identification.

Novice Drivers must have at least one parent / guardian present at the track at any time they are on course.

The Driving Master will review the application documents and meet with the Novice, the Novice's Parents, and Instructors to determine the needs and training objectives of the individual Novice Driver. The D.M. will assess and tailor the training goals and curriculum to those needs, confirm instructor assignments, and review lesson plans.

The program:

A qualified instructor will be assigned to work with the student. The days training focus will be approved by the "The Driving Master".

Input and recommendations from the instructor will be added to and retained in the Novices file (log book) for review.

Although 1 on 1 instruction is ideal, a maximum ratio of one instructor to 3 students will be allowed.

All underage applicants are to be considered Novice Drivers and "in training" and will be accompanied in the vehicle by a O.R.P. instructor until such time as they have been observed and signed off to solo by all of the following: Their parent / guardian, their instructor, the D.M. and the O.M.

A driver that has been cleared to solo may have that privilege revoked or be eliminated from the program at the discretion of the O.M.

Cars to be driven by novices will be inspected and the self tech form signed by an adult who will aquatint the Novice with the Tech process.

Instructors will be responsible for their students ability to correctly identify the meaning of control flags, signals, track rules and safety protocols prior to allowing them on course control of the vehicle. If a classroom format is utilized trainees are expected to attend all sessions.

Novices may be stationed in a tower with an experienced turn worker or instructor to learn course control techniques or observe other drivers.

Instructors will conduct thorough orientation tours (in the direction of the day) which will include track entry, track exit, emergency avoidance, off course car control, passing protocol, points of visual focus etc. (There will be pop quizzes).

Any vehicle a Novice is operating will conspicuously display orange dayglo panel's front and rear of not less than 36 sq. inches at any time the vehicle is on a "Hot Track".

All Novice Drivers will be introduced and vehicles identified at the morning Driver Meeting.

As is the rule that applies to all O.R.P. Club Events: If a vehicle is occupied by more than one person, one of them must be on our approved instructor list.

Fees:

Track fees apply. Check with the Brenda in the Track Office if you have questions. 541-333-2452.

Some instructors donate their time, some charge a fee. Please be sure expectations are worked out in advance.

Subject to the rules of the Guest Certificate Program an O.R.P.C. certificate holder may apply for use by a non-related underage guest as long as the above stipulations are fully met.

If a Novice is found to be unsuitable for the program they may be dismissed from the program at any time.

Once a novice has driven on course no request for refund or adjustment of a family membership will be accepted.

Stipulations and Regulations for under aged drivers at ORP

Thank You for your interest in enrolling your underage driver in O.R.P.'s Novice Driver Program.

I believe that O.R.P. is by design (and confirmed by our excellent record of safety) uniquely suited to help young drivers develop a very comprehensive understanding of upper level driving skills without so many of the risks posed by other tracks. However such an endeavor needs to be taken seriously, guided, and carefully monitored.

Many of our more experienced Club Members have welcomed this program and look forward to a chance to help mentor new drivers. The long-term value will depend on how effective the program is at training our future racers and developing better skills for those new drivers with which we share the road.
